Company Profile

Since being founded in 1983, Shuttle has laid a solid foundation in developing compact commercial and industrial computers. We are proud of our ability to innovate, design and manufacture cutting-edge computer products, including mini PCs, all-in-one PCs, edge computing, embedded computers, and industrial and medical-grade Panel PCs, which are widely integrated into automation control, intelligent self-service kiosks, digital signage, IP monitoring edge computing, machine vision, VR/AR and other solutions, and have established a good reputation in different industries such as manufacturing, hospitality, retail, healthcare, and business.

With the rapid development of advanced technologies such as artificial intelligence and the Internet of Things, we continuously strengthen our research and development technology and enhance our system integration capabilities to provide a high-quality, diverse, and competitive product portfolio to help our customers win projects and further improve efficiency, productivity, and effectiveness.

Applications

IPC Product Line

IOT EDGE COMPUTER

ULTRA-COMPACT IOT SOLUTION

Ultra-compact industrial-grade PC with a fanless design in a sturdy metal chassis, intended for DIN-Rail or VESA mounting, offers various external connection options, ideal for IoT edge computing and automation.

EN01E

Entering A New Era of IoT

Intelligent Platform for Data-Intensive Edge Applications

The EN01E is Shuttle's smallest full-featured PC, designed for visual signage and intelligent edge applications. Powered by an Intel® Atom™ x5-E3940 processor, the EN01E offers optimized cost and the best application performance, all within a palm-sized dimension of just 0.4L. With its rugged, fanless design, it can withstand a wide range of temperatures from -20 to 60°C and serves as an intelligent platform for IoT edge applications. Ideal for use in the industrial automation, transportation, and communications sectors.

Features

- Ultra-small industrial-grade PC : 92 x 54 x 90 mm
- Equipped with Intel® Atom® x5-E3940 processor
- Built-in Gigabit LAN and support optional 4G/LTE network extension kit
- 2 x USB 3.2 Gen1, 1 x micro USB, 1 x HDMI, M.2 3042, and Micro SD card reader
- Optional PoE function (PSE01/PD01) for simplified on-site installation
- Designed for Extreme Environments : -20~60°C wide temperatures range and fanless architecture

		EN01E

OPTIONAL ACCESSORIES		PLA01, PSE01, PD01

EMBEDDED BOX PC

FANLESS, CUSTOMIZABLE, POWERFUL TO TACKLE DIVERSE TASKS

Embedded Box PCs combine a fanless thermal and a robust aluminum chassis to remain stable in harsh operating conditions. With customizable modular design and multiple interfaces, the PCs are ready to suit particular tasks.

BPCAL02 / BPCAL03

Intel® Alder Lake-Based

Real-Time Edge Processing with Unmatched Performance

Shuttle BPCAL02 and BPCAL03 are high-performance and flexible embedded box PCs that handle various edge computing applications. Equipped with Intel® 12th Gen Alder Lake processor with built-in Intel® Iris Xe graphics*, which adopts a hybrid architecture design that enhances computing and loading efficiency. Host a dual-channel memory slot supporting DDR5-4800 maximum of up to 64GB, resulting in fast load time. It has rich I/O, such as USB 3.2 Gen 2, USB 2.0, RS232, HDMI 2.0, Intel® LAN, and M.2 slot. Furthermore, the BPCAL03 supports a working temperature range of -20° C to +60°C. The BPCAL02 / BPCAL03 can provide a reliable and efficient solution for AI, machine learning, monitoring and controlling industrial processes, analyzing and recognizing images and videos, and more.

Features

- 12th Gen. Intel® Alder Lake Core™ / Celeron processors
- Max four independent displays via HDMI 2.0 and optional video output expansion kit
- Dual Intel® LAN, 4 x USB 3.2 Gen 2, 4 x USB 2.0, 3 x RS232, M.2 2280 Type M, and M.2 2230 Type E
- Modularity for I/O configurations to meet diverse application needs
- Multiple installation support : VESA, Ear Mount, DIN-rail
- Operating Temperature : BPCAL02: 0°C ~ 40°C BPCAL03: -20°C ~ 60°C

* Intel® Iris Xe graphics for Core i5 / i7 model only

BPCEL02/ BPCEL03/BPCEL07

Intel Elkhart Lake-Based Accelerate Your IoT Innovations with Powerful Computing

Shuttle BPCEL02/BPCEL03/BPCEL07 are powerful and versatile fanless embedded PCs designed with the Intel® Elkhart Lake platform, offering multiple processor options to meet different performance requirements. The series comes in a rich set of I/O and expansion interfaces, including dual Intel 2.5GbE, 4x USB 3.2 Gen 1, 4x USB 2.0, 3x RS232, M.2 2280 Type M, and M.2 2230 Type E. The modular design of this series allows for different I/O expansions and replacements to meet various customization needs. Moreover, the aluminum alloy housing design provides excellent heat dissipation and anti-interference capabilities, supporting a broad working temperature range of -30°C to +70°C. It is well-suited for several application fields, including industrial control, automation, IoT, edge computing, retail, and more.

Features

- CPU options of Intel® Elkhart Lake Pentium® J6426/ Celeron® J6412/ Atom® x6425E
- Dual independent display via HDMI (Support up to triple display through optional video output expansion kit)
- 4 x USB 3.2 Gen 1, 4 x USB 2.0, 3 x RS232, M.2 2280 Type M, and M.2 2230 Type E
- Dual Intel® 2.5G LAN supports Wake On LAN
- Dual DDR4 3200MHz memory, up to 32GB
- Multiple installation support : VESA, Ear Mount, DIN-rail

Flexible I/O Customization with Expansion Kits

Shuttle's Embedded Box PCs offer flexible I/O design, making it easy to customize and optimize IoT applications for maximum efficiency.

The front panel is divided into four sections that support optional expansion kits with daughter boards, allowing for the addition of I/O ports. Expansion must begin with Section 1, with subsequent kits occupying Section 2, and so on.

TOUCH PANEL PC

RUGGED FANLESS PANEL PC WITH FRONT IP65 PROTECTION

Shuttle's Industrial Panel PCs are built with rugged aluminum housing and come in screen sizes ranging from 15.6 to 21.5 inches, featuring multi-touch technology and flexible computing power. Additionally, the I/O interfaces are customizable to meet your specific needs.

P21AL01/P21EL01

21.5" Multi-Touch Panel PC

Perfect for various Industrial and Commercial Applications

Shuttle's industrial-grade panel PCs come in a 21.5-inch size and offer multiple processor options suitable for IoT applications. The performance-oriented P21AL01 supports Intel® 12th Gen Alder Lake Core™ processors, supporting up to 64GB DDR5-4800 memory. Meanwhile, the P21EL01 offers CPU options of Intel® Elkhart Lake Atom®, Pentium®, and Celeron®, offering an excellent price-performance ratio. These panel PCs feature a rugged aluminum housing front bezel with IP65 dust and waterproof protection and a 10-point touch function. They offer four USB 3.2, three RS232, one HDMI, dual Intel® LAN, WiFi AC+Bluetooth 5.0, one M.2 2280 M key slot, and one SATA connector for flexible connectivity. These features make them ideal for industrial control, automation, and edge computing applications.

P15AL01/P15EL01

15.6" Multi-Touch Panel PC

The Perfect HMI Replacement for Industrial Automation

Shuttle P15AL01/P15EL01 integrates a 15.6-inch FHD TFT LCD panel and features an IP65-certified front bezel panel. They feature Intel® Alder Lake and Elkhart Lake processors, which deliver outstanding performance, efficiency, and connectivity for a wide range of IoT applications. Rich I/O interfaces include USB 3.2, RS232, HDMI 2.0, M.2 2280 M key, Intel® LAN, and IEEE 802.11ac WiFi + Bluetooth 5.0. Moreover, the series offers customized I/O configurations to integrate with industrial production architecture. Equipped with high-performance computing capability, it is suitable for human-machine interface (HMI), process control, infotainment, and kiosk.

MEDICAL PANEL PC

COMPLIANT WITH MEDICAL SAFETY STANDARDS

Medical-grade panel PC by Shuttle features a rugged aluminum chassis with an antibacterial coating and an IP65-rated front panel that helps with hygiene and infection control. The series is suitable for any healthcare center with safety IEC/EN 60601-1, CE, and FCC Class- B medical certificates. This high-value panel PC comes with a customizable modular design to enhance system versatility.

M21WL01

Medical-Grade Panel PC

Fanless, IP65 Front Bezel, Modularized Design

The M21WL01 is a medical-grade panel PC with safety IEC/EN 60601-1, CE, and FCC class-B medical certificated, featuring a sizeable 21.5-inch FHD TFT LCD antibacterial touch housing that helps with infection control. Powered by Intel® Whiskey Lake-UE processor with a fanless design, M21WL01 delivers high-performance computing in durability and functionality. In terms of its flexible connectivity, the model includes four USB 3.2 Gen1, three RS232, dual Intel® Gigabit LAN, and WiFi 802.11ac+BT 5.0 and allows users to select different I/O ports to enhance system versatility. It is purpose-built for a medical application that complies with the requirement of medical electrical equipment and is suitable for the healthcare sector as an information terminal in the operating room, bedside, medical cart, and digital signage in hospital, etc.

Features

- Intel® Whiskey Lake-UE Celeron®, Core™ i3/i5/i7 processor
- Antibacterial substance throughout the front touch panel, rear and cable cover
- IP65 front panel waterproof protection
- I/O interfaces: 1x HDMI 1.4, 1x DVI-I, 4x USB 3.2 Gen1, 1x RS232, 2x RS232 /422 /485, RS232 with power supply: ring in/ 5V (standard) &12V (with specific optional board), 2x RJ-45, POAG
- Dual Intel Gigabit LAN and WiFi 802.11ac+BT 5.0
- Medical Certificate EMC & Safety: FCC Class-B, CE Mark Class-B, IEC/EN 60601-1

KIOSK

EMPOWERING BUSINESSES, ENHANCING EXPERIENCE

The interactive kiosk is a computer-like device featuring specialized hardware and software that can be deployed in any venue to offer self-service options and access applications.

K11WL02 , K15WL01 K21WL01 , K27WL04

X86-Based Self-Service KIOSK

The kiosk is an advanced self-service terminal that seamlessly integrates hardware and software, offering businesses automation and efficiency. Powered by the Intel® 8th Gen Whiskey Lake processor and integrated Intel® UHD Graphics, this x86-based interactive kiosk is robust in computing, boasting four USB 3.2 Gen1, an RS232, and one Intel® Gigabit LAN. Its modular design is highly customizable and can support a wide range of peripherals such as 1D/2D scanners, thermal printers, NFC readers, IC card readers, payment devices, and webcams, tailored to meet specific business requirements like ticketing, check-in, guide maps, and other information services in entertainment and healthcare applications.

Features

- Intel® Whiskey Lake-U/UE processors
- 11.6/15.6/21.5/27-inch 1080P FHD, PCAP 10-point multi-touch screen
- Sturdy and robust SECC metal enclosure
- Mounting supports : Counter mount (optional), Pole mount (optional), Wall mount
- Provide 4 x USB 3.2 Gen1, 1 x RS232, 1 x Intel® Gigabit LAN, and WiFi 802.11ac + Bluetooth 4.2
- Support a wide range of peripherals of 1D/2D scanner, thermal printer, NFC/RFID reader, IC card reader, a payment device, and webcam

ARM-Based Self-Service Kiosk

The ARM-based interactive self-service kiosks are designed with functionality in mind and are well-suited for delivering extensive self-service capability for desktop, counter, or wall mount deployment. Equipped with a Rockchip RK3368 Octa-Core processor, the kiosk provides eight USB 2.0, a Realtek Gigabit LAN, and WiFi 802.11 ac & Bluetooth 5.0. In addition, it can house a variety of peripherals of 1D/2D scanner, thermal printer, NFC/RFID reader, IC card reader, a payment device, and a webcam, customizing based on the functional requirements and service purposes to meet needs for ticketing, payments, check-in, queue management, guide map, information services, etc.
